

# Working Student - Bioprocessing

(all genders)

# IRUBIS

Apply now to IRUBIS and become part of a great team that revolutionize the way how biopharmaceuticals are produced. IRUBIS developed Monipa for monitoring of upstream and downstream processes. Monipa will enable fully automate process development and manufacturing of biologicals and will significantly increase product quality and quantity.

## Your task

- as working student in bioprocessing you support our application engineers for the technical interaction with the biopharma companies
- you acquire and support projects with biopharma companies
- your position is highly driven by your scientific, technical, and analytical skills but requires also soft skills and eagerness to collaborate

## Your profile

- Bachelor's degree in natural sciences or engineering
- matriculated in a master program in Germany
- experience in bioprocessing (upstream or downstream)
- fluent in English
- interest and curiosity in new technologies and innovations
- ambition to shape and build something new

## What we offer

- modern office space: centrally located in Munich
- flexible working hours, a great team and flat hierarchies
- exciting personal development opportunities
